DIGITALNI CERTIFIKATI

CA CERTIFIKATI

CA certifikat je certifikat kojeg je izdalo i potpisalo certifikacijsko tijelo (CA). CA certifikat sadrži javni ključ i naziv CA koji je izdao certifikat.

Za korištenje certifikata sa starim profilom potrebno je jednokratno importirati na računalo CA root certifikat, kako bi se u naknadnoj primjeni digitalnih certifikata mogla uspješno obavljati verifikacija istih.

Za korištenje novih RDC 2015 i RDC-TDU 2015 certifikata, potrebno je jednokratno importirati na računalo CA root i subordinirani certifikat kako bi se u naknadnoj primjeni digitalnih certifikata mogla uspješno obavljati verifikacija istih.

Citrix Receiver preuzmite sa <https://www.citrix.com/downloads/citrix-receiver.html>

Preuzmite i instalirajte verziju 4.4.1000 za Windowse

The screenshot shows the Citrix website's download page for Citrix Receiver. The browser address bar shows the URL <https://www.citrix.com/downloads/citrix-receiver.html>. The navigation menu includes Citrix, Products, Downloads, Support & Services, and Partners. The breadcrumb trail is Home / Downloads / Receiver. A search box labeled 'Find Downloads' contains 'Citrix Receiver' and a search button. Below it, a 'Narrow Results' section shows filters by type: All Types (selected), Other Receiver Plug-ins (9), Earlier Versions of Receiver for Windows (6), and Earlier Versions of Receiver for Linux (5). The main content area features the heading 'Citrix Receiver' with a link to subscribe to RSS notifications. A description states: 'Citrix Receiver is the easy-to-install client software that p XenApp installations.' A prominent blue button reads 'Download Receiver 4.4.1000 for Windows'. Below this, there is a link to 'Browse Receiver FAQ'. The section 'All Receiver options' lists 'Receiver for Windows' as the selected option, with a sub-entry for 'Receiver for Windows' (Receiver for Windows 4.4.1000, Apr 27, 2016) and another for 'Earlier Versions of Receiver for Windows'.
